

NEPTUNE DISPENSERS

The Advantages of NEPTUNE DISPENSERS:

- ideal dosage
- good emptying
- maximal hygiene since there is no direct contact between the product and the dispenser.

Optional Properties:

- lockable
- automatic, touch-free dosage with the Touchless version
- drip tray (e.g. for liquid disinfectants) available in black or white

NEPTUNE DISPENSERS are suitable for Physioderm®'s 1-L-NEPTUNE-bottles. One 1-L-NEPTUNE-bottle will last out up to 2.500 applications.

NEPTUNE DISPENSING SYSTEMS

INNOVATIVE SKIN CARE SYSTEMS FOR YOUR WASHROOM

A skin care programme by

The NEPTUNE dispensing system makes the use of Physiiderm® products even more convenient. The universal dispenser is suitable for all types of products – skin protection, skin cleansing and skin care as well as for disinfection products.

The lockable NEPTUNE dispenser system is easy to load; refills can be exchanged without much effort. The appropriate valve is part of each bottle. Since the valve is replaced with each refill, creams, lotions, gels and foams are always dispensed ideally and hygienically.

The flexible, universal dispenser was especially developed for washrooms in industry, administration and public buildings. Moreover, the NEPTUNE dispenser system is available in both a manual and an automatic, touch-free version. Its unique, customizable design makes the 1-L-dispenser perfect for any application.

THE PRODUCTS FOR NEPTUNE DISPENSERS AT A GLANCE
